

Online Ticketing Made Easy: A Great Match to Event Marketing

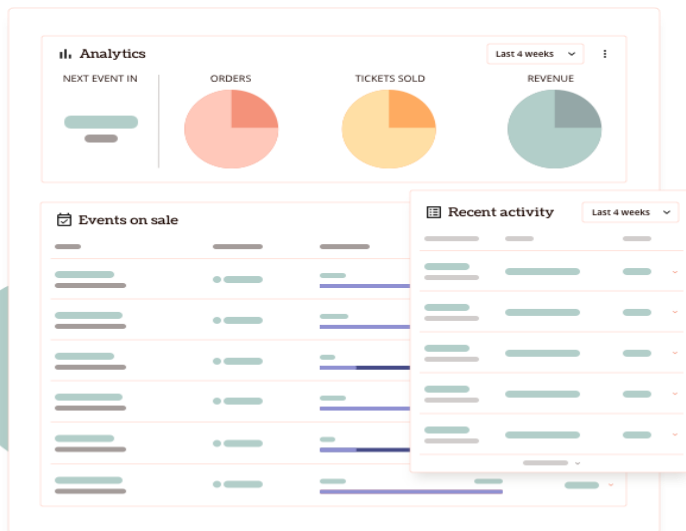

You asked, TSE answered:

TSE Entertainment now provides a simple way to sell tickets online. TSE's online ticketing platform makes it easy to sell tickets for concerts, festivals, or anything else requiring a ticket. Easy-to-use ticketing application makes selling tickets to checking in people to your event a simple process. What's more it's very economical.

Simple to set up ticket sales on your site. Use our design or customize it as much as you like to fit your needs. You can sell tickets from a box office website, embed it into your website or put it on your Facebook page.* It's mobile-friendly so its easy for people to buy tickets using their phone, tablet or computer. Our automated order confirmation and ticket delivery via email can be customized for your needs.

*Requires 2000 likes

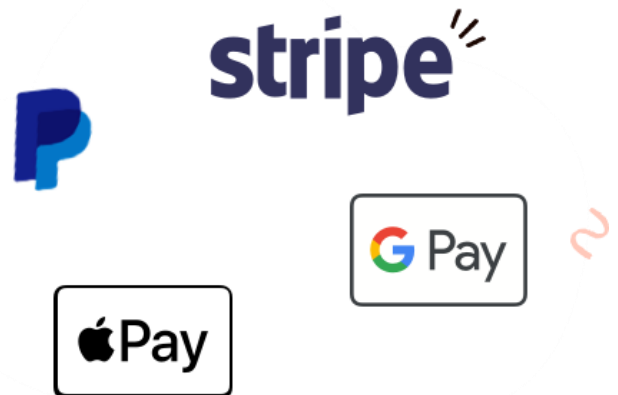

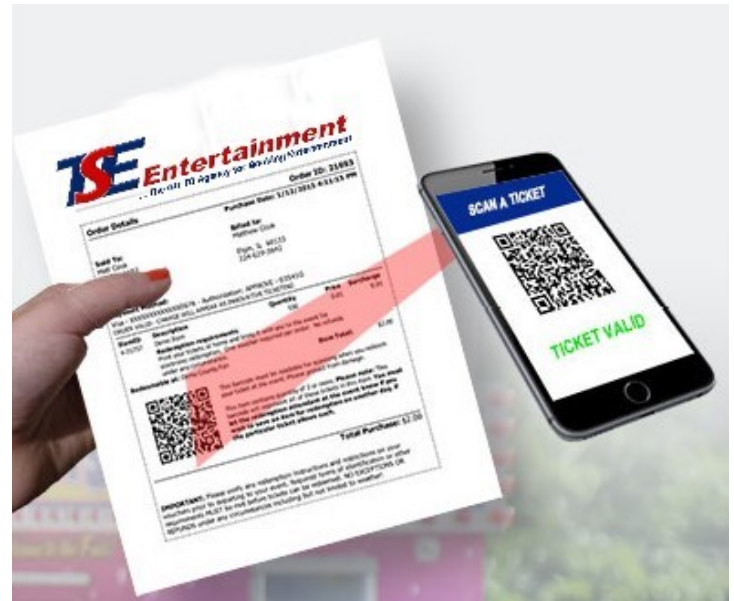

Collect the data you want from your guests as part of the ticketing process. You get ticket sales notifications, easy-to-understand sales summaries, and customer order analytics. All this provides great insights as to how and who when it comes to ticket sales.

Ticketing application accepts credit or debit cards; Apple Pay; Google Pay; PayPal or Stripe. Need paid in Canadian dollars or other currencies? Not a problem.
