Ticketing Tactics For Successful Events

Your event ticketing strategy is a very critical piece of any successful concert or festival. By ticketing strategy we mean defining target audiences, ticketing tiers, ticketing packages, add-ons and the actual process and timetable for ticket sales. Selecting the ticketing tiers, pricing, VIP packages and add-ons can be a daunting task for those who are in the concert promotion business. Once you have decided on those after doing your homework of similar events, you also need to think about your

approach to selling the tickets for your event. Check out our article on event ticketing for your next ticketed event.

Latest Addition to Our Tribute Roster

"Almost any music fan who came of age in the 1980s will cite Foreigner and Journey as bands that soundtracked their young life, bands that are forever lodged in their mind. Back then, the two acts might have been separated by an ocean, but together they helped define the 'magic era' of classic rock." Constantine the lead singer is an American Idol alum and was the star of Rock of Ages forever on Broadway.

Client Review:

Thank you and TSE Entertainment for making the recent Casey Donahew concert promotion and production a pleasant experience. You and Dewey Moffitt were total professionals and made my job easier and more efficient and productive. I would highly recommend anyone wanting to produce/promote an event work with TSE Entertainment. I believed from the beginning that working through TSE was going to make the event more successful, and I was absolutely correct in that assessment. You were super helpful throughout, and Dewey was especially helpful when it came to the production side of the event.

Thank you again for all your support and guidance. I look forward to working with you again in the future.

Respectfully,
