**Stage Lighting for Event  
Production**

## **Stage Lighting is an Important Piece of Concert Production**

Concerts are about the artists and the music being performed. However, stage lighting live entertainment events is a big part of local production for such events. Depending on how renown the band, stage lighting can be choreographed for each song in the performance by programming well ahead of time or it can be left up to the lighting fixtures themselves to synchronize to the music being performed.

LED lighting has transformed the ease at which lighting configurations can be used during a concert. Today's lighting is intelligent, emotional and dynamic. It can mean the difference between a good concert and a great one.

# POM Person

TSE Entertainment's onsite producer that provides you Peace of Mind.

## Delivering Peace of Mind for Your Events

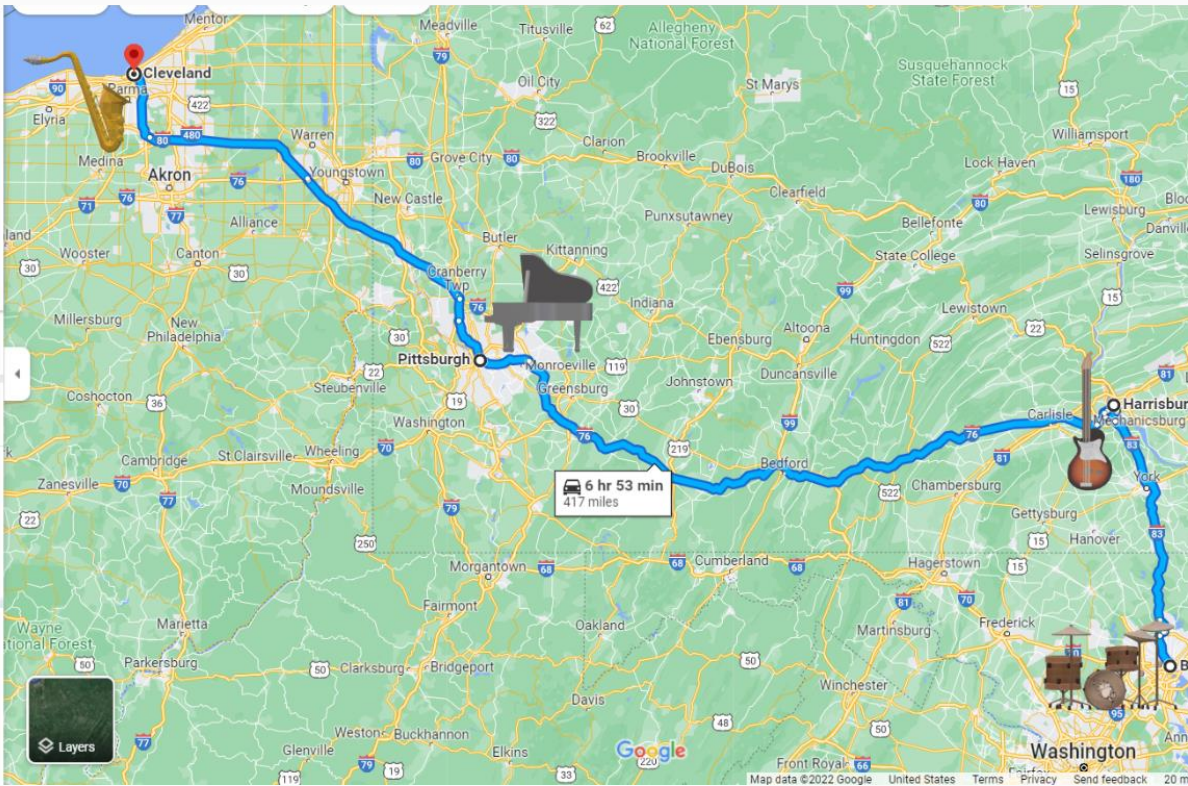

The next best thing to having TSE handle all of your local production needs is having TSE's PoM person on site to handle all of the local production and artists issues involved with your event. What's a PoM Person you ask?

It's an experienced producer who becomes your liaison with all of the contractors, artist representatives, and people involved with putting on the show, down to the stagehands. You get someone who knows every detail of what needs to be done and when during your event.

Having a TSE Producer on site delivers Peace of Mind to those putting on the event. That's why we call them PoM People.

# Act Now or Miss Out on Chance to Save \$\$\$

## Routing Artists to Several Venues Saves Money for All Involved

One of the easiest ways for you to keep performance fees down is by venues having a routing gig for the acts you want. What's not to like about that? Bands feel the same way. We just need to get venues and bands together in the process.

**You have nothing to lose!**

**Click the Button Below and Fill Out the Form**

*It just might be a way to get the artists you want at a price you can afford.*
